UNLOCKING POTENTIAL &
ADVANCING OPPORTUNITIES

All for Math

The campaign for math proficiency

Why Partner With Us?

Our mission is to unleash the power of math education and transform futures by leveraging the talents and resources of the actuarial community. Here's how we're improving math proficiency and why it's significant.

Proven Impact

Our programs have transformed the lives of more than 12,000 students annually by boosting their math confidence and proficiency, opening the door to stronger academic performance and heightened career opportunities.

Starting Early

Our initiatives begin engaging students early in their math journey, from elementary school through college, to maximize long-term impact.

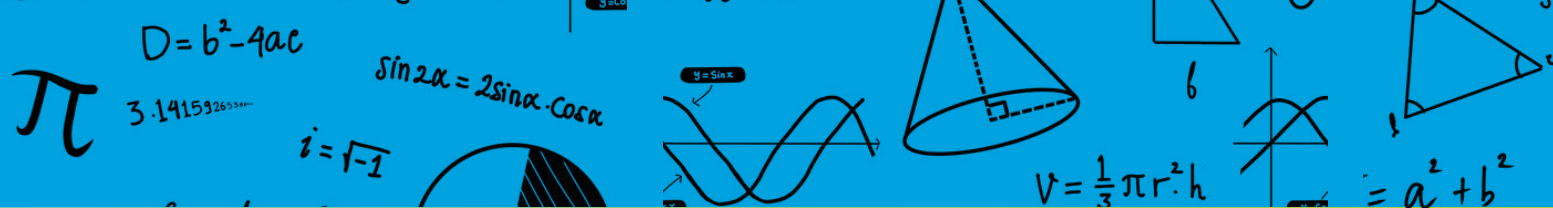

Scalable Solutions

With our extensive network of volunteers and partners, we provide scalable solutions that reach students in diverse communities, supporting learners nationwide and working to ensure that no one is left behind.

Strengthening the Profession

Supporting our organization enhances the industry's involvement in service, giving, and social responsibility while strengthening its reputation. For companies, it demonstrates a commitment to community and education, and individual actuaries are empowered to give back to the profession by directly contributing to the success of future generations.

Our Impact

Over the past thirty years, our impact has rippled through countless lives. With each additional partnership, we can reach even more students, expanding the impact of our programs.

Cherece Burell, Former Math Motivators Student Turned Volunteer

“Having a program like Math Motivators was very helpful. I got the opportunity to meet with a tutor one-on-one or in a small group, which was so much more effective than sitting in a class with 25 other students.”

Alex Alvarado, Former Modeling the Future Challenge Participant

“Until the competition, I hadn’t been critiqued in a real-world setting; it was all academic. Presenting your work out-side of school to be evaluated felt a lot riskier, but having that opportunity pushed us to create competency.”

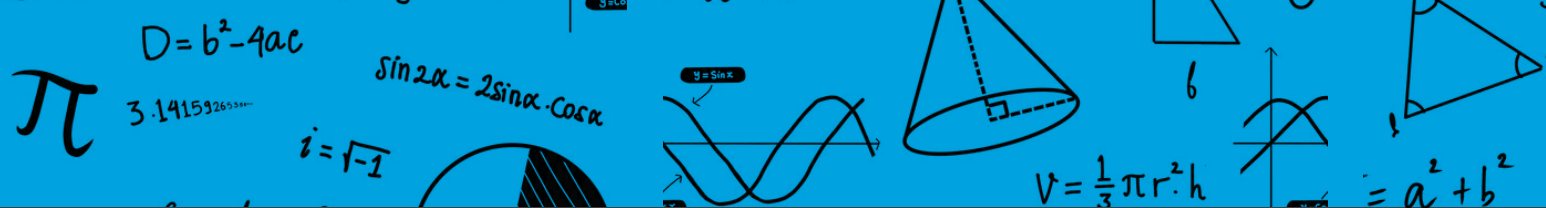

Meir Wieder, Hardest Math Problem Volunteer

“I love the experience of seeing how the middle schoolers approach these problems. The solutions are creative, thoughtful, and well-communicated. As an Actuary, there’s almost never a clear-cut answer to the work I do – while I enjoy this, it’s nice once and a while to come back to a math problem where there is a RIGHT answer.”

Melvin Joseph, STEM Stars Actuarial Scholars Program Participant

“Winning this scholarship has opened the door to so many opportunities and has strengthened my drive to enter into the actuarial profession.”

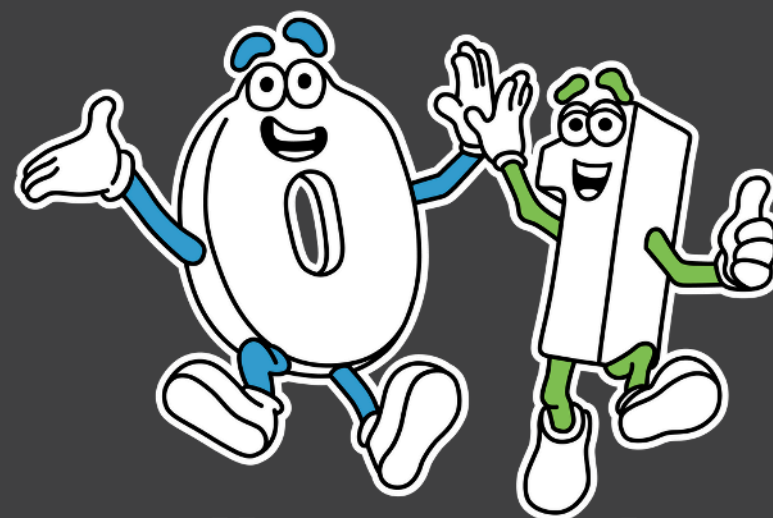

About The All for Math Campaign

Through the All for Math Campaign we're bringing together the entire actuarial community to ensure that students everywhere build confidence and proficiency in math.

The overall average mathematics score for teens has dropped since 2020, making a significant impact across racial and ethnic groups, reflecting widening disparities in educational outcomes. This reflects the urgent need for targeted interventions to support math education at an early age.

In addition, a strong foundation in math equips students with the critical thinking and problem-solving skills needed for success in all STEM fields, and for wherever life takes them.

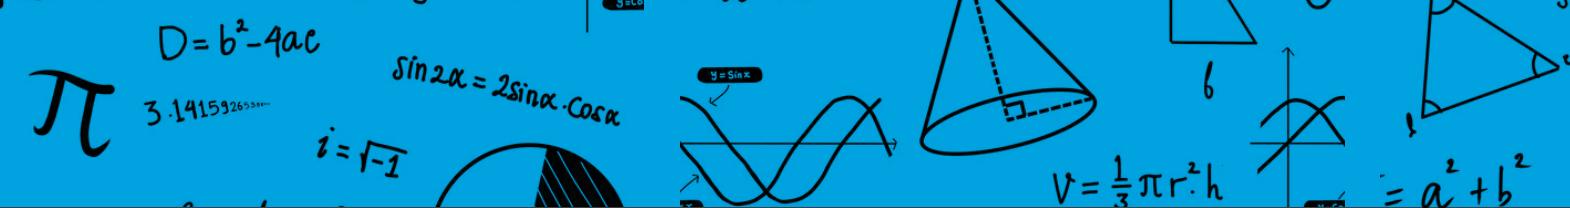

The All for Math Campaign aims to significantly increase engagement among actuaries in support of our programs. By engaging more actuaries as donors and volunteers, together we can dramatically amplify our impact.

Share Your Love of Math!

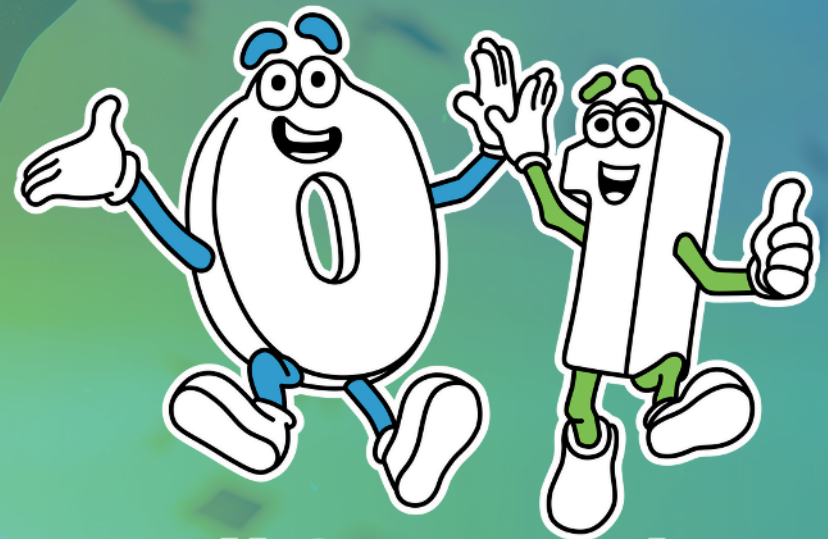

2025 All for Math Sponsorship Levels

As a sponsor, your company will be recognized as a key supporter of math education, equipping students with vital problem-solving and critical thinking skills, and opening doors to their futures. We understand that each company has unique goals, and we are eager to work with you to craft a sponsorship package that aligns with your objectives. A sample appears below. Your specific visibility and exposure will be based on your level of support.

| Benefits & Giving Levels | Logo/Name Recognition | Social Media Post | STEM Stars Corporate Advisory Council | Press Release | Podcast |
|--|-----------------------|-------------------|---------------------------------------|---------------|---------|
| Infinity Sponsor \$100,000 and up | Logo | ✓ | ✓ | ✓ | ✓ |
| Equation Enthusiast \$50,000 - \$99,999 | Logo | ✓ | ✓ | ✓ | |
| Probability Partner \$25,000 - \$49,999 | Logo | ✓ | ✓ | | |
| Integral Investor \$10,000 - \$24,999 | Name | ✓ | | | |
| Number Nurturer Up to \$9,999 | Name | | | | |

Help pave the way for success!
