[Create Account](#)

How This Works:

- ✓ You create (or log in to) your Give Lively account. Give Lively is the technology that powers this fundraising platform.
- ✓ You go through the steps to create your individual Peer-to-Peer Fundraising page. You can customize your page with your picture, a message to your network and more.
- ✓ You start fundraising! Once your page is ready, share it via email, text and social with your family, friends, colleagues and the world.

3. Once your account is created and confirmed, you will be led to a “personalize your page” screen, where you can customize what donors will see about you, your fundraising goal, and your picture (if you so choose). For our Pi Day Fundraiser, please use the below photo (you will need to download it from the image link in order to upload).

Note for the “Add a Note” Section (can also be used as a social post):

This Pi Day, I’m proud to support The Actuarial Foundation’s 3.14 Throwdown Pi Day Challenge by raising funds for the All for Math Campaign. The Actuarial Foundation helps bring life-changing math education programs to students across the country, giving them the confidence and skills they need to succeed in school and beyond. I’m inviting you to join me in making a real impact! Every donation, big or small, helps create brighter futures through math. Thank you for supporting this cause and celebrating Pi Day with purpose! (link to your fundraiser)

If you want to learn more, visit <https://actuarialfoundation.org/pi-day/>

4. After your page is saved, you will be able to see your fundraising page and copy a link to share to whomever you choose!
